UZBEKISTAN AGROTECH/ AGROMASH EXPO 2017

12th International exhibition for agriculture and food processing industry

The Market

With the average annual growth rate of 6.9% during the last five years, agriculture remains one of the most crucial sectors of Uzbekistan's economy. It is the third largest contributor to the country's GDP (17.2% in 2014), which employs one third of the labour force (28.1% in 2014). The production of raw cotton, a traditionally principal agricultural product, has been decreased from 6 to 3 million tonnes a year and more emphasis is now put on growing crops, fruits and vegetables. Despite the fact that Uzbekistan produces around 16 million tonnes of fruit and vegetables including 12.6 million tonnes of vegetables, this volume is to be doubled by 2020. The government of Uzbekistan is aiming to remove the growth barriers related to the lack of modern machinery, processing and cooling technologies and invest more in modernising its agricultural sector in the upcoming year.

The Exhibition

In May 2017 Uzexpocentre will host 12th Uzbekistan Agrotech Expo and 6th Uzbekistan AgroMash Expo, international specialized exhibitions for machinery, technology and equipment for agricultural and food processing industries. The exhibitions have a long-standing reputation as a platform for establishing cooperation between foreign producers and buyers from Uzbekistan. The event is organized by the Ministry of Foreign Economic Relations, Investments and Trade of Uzbekistan and thus receives full government support.

Main Topics

- Agricultural machinery and equipment
- Fruit and vegetables processing
- Milk processing
- Meat processing
- Bakery & Confectionery Equipment
- Poultry equipment
- Packaging and labelling
- Cooling technology
- Equipment for animal breeding
- Grain processing
- Greenhouse equipment

UZBEKISTAN AGROTECH/ AGROMASH EXPO 2017

12th International exhibition for agriculture and food processing industry

Review

Participating countries 2016:

Austria, Belgium, Italy, Germany, France, Netherlands, Korea, Turkey, China, Russia, India, Latvia, Switzerland, Iran, Czech Republic, Belarus, Sweden, Denmark, Israel, Spain etc.

8 500 Visitors

The Venue

With 44,6 hectares providing space for 4 pavilions on an area of 14,000 square meters of indoor and about 7,000 square meters of outdoor exhibition spaces Uzexpocentre hosts annually more than 50 various international exhibition events in various sectors.

Being conveniently located in the centre of Tashkent the venue is easily accessible for visitors and participants through major public transportation routes due to its proximity to main highways.
