Meat Industry/ AgroProdMash 2018

October 8 - 12, Expocentre Moscow

The Market

The imposed import ban on food has led to a steady increase of domestic food production in Russia. International manufacturer of agricultural, food and packaging machines are not affected by the import ban so that they benefit from increased investments of Russian manufacturers in the modernization of their facilities, especially for crop, meat and milk processing.

According to GTAI, food and beverages totaling 6 billion rubles (about 85 million euros) were produced in Russia in 2016 leading to a 60 percent growth in supply of domestic products in the retail sector in the last three years.

Government subsidies worth one billion rubles (15.6 million euros) supported manufacturers of Russian food technology in 2017. About one billion rubles of subsidies will be made available for the agriculture and food industry by 2020 striving for independence from food imports in the next seven years.

The Exhibition

AgroProdMash is the meeting point for manufacturers and dealers of food and packaging machinery as well as ingredients and additives since 1996. At the last exhibition, 808 companies took part showcasing their machinery and equipment in 19 halls. More than 24.000 trade visitors did not only come from Russia but all GUS states.

As in the past years, German manufacturers will be exhibiting at a joint German stand at this year's „Meat Industry“, which takes place in the frame of AgroProdMash.

Exhibition sector - Rybpromresurs

In 2017, Rybpromresurs welcomed 99 exhibitors showcasing refrigeration equipment and solutions in the fishing industry.

Since Russia imposed a food embargo the government's focus has shifted towards self supply. The Russian government has introduced a programme to increase the annual fish production by 2020 to 315,000 MT in order to reduce the country's dependence on imports. With an annual catch of 4.8 MMT Russia is one of the TOP 10 fishing countries. So far Russia produced 160,000 MT of aquaculture fish. Due to badly equipped production facilities, infections and insufficient feed quality the sector failed to reach higher results.

Main Topics

Food processing technologies • Bakery and sweets technologies • Fruit and vegetable processing • Labelling machinery • Packaging machinery • Storage equipment • Beverage technologies • Ingredients and food additives • Industrial refrigeration • Transport and logistics • Industrial hygiene

Our experience is your profit!

Meat Industry/ AgroProdMash 2018

Statistics

Development of AgroProdMash

Year	1996	2004	2010	2013	2014	2016	2017
Exhibitors	320	658	644	803	762	732	808
Exhibition space	7,043 m ²	17,630 m ²	19,310 m ²	23,409 m ²	22,000 m ²	22,125 m ²	24,721 m ²

Exhibitors from the following countries:

Australia, Austria, Belarus, Belgium, Bulgaria, China, Czech Republic, Denmark, Germany, Finland, France, Great Britain, Greece, Hungary, Ireland, Iceland, Israel, Italy, India, Japan, Korea, Latvia, Lithuania, Netherlands, Norway, Poland, Russia, Sweden, Switzerland, Serbia, Slovakia, Slovenia, Spain, Tajikistan, the USA, Turkey, Ukraine

Innovations for exhibitors and specialised visitors

- online matchmaking for B2B
- online admission-tickets for your clients
- business centre on the fairground offering a computer room and meeting rooms
- exclusive sponsoring programs to upgrade your company's presence at the exhibition
- "AgroProdMash FoodTec Award" in cooperation with DLG e.V.
(German Agricultural Society)

Our Service

- extensive personal support before and during the exhibition
- competent consulting for stand construction
- support by our experienced partners regarding transport, customs clearance and travel organisation
- IFWexpo-service-office at the exhibition
- free admission-tickets for your clients
- extensive advertising before and during the exhibition (advertisements in specialised magazines, listing of company in web-catalogue of AgroProdMash)
- two invitation tickets to the evening reception of IFWexpo
