Meat Industry/ AgroProdMash 2020

5 - 9 October, Expocentre Moscow

The Market

The imposed import ban on food has led to a steady increase of domestic food production in Russia. International manufacturer of agricultural, food and packaging machines are not affected by the import ban so that they benefit from increased investments of Russian manufacturers in the modernization of their facilities, especially for crop, meat and milk processing.

In 2017, the market for food production equipment in Russia was about 1.3 billion euros. Domestic production rose by 20 percent over the previous year to 242 million euros. Government subsidies worth one billion rubles (15.6 million euros) supported manufacturers of Russian food technology in 2017. And yet another billion rubles of subsidies will be made available for the agriculture and food industry by 2020 in order to enforce independence from food imports in the next seven years. Despite the increase, domestic manufacturers can only supply about 18 percent so that the Russian food industry still heavily relies on imports.

Moreover, Russian consumers are adjusting their diet to their lifestyle. Market research institutes forecast that the demand for convenience products will increase by about 7 percent to 28.6 million tons in the next three years. In order to meet the growing consumers demands on appearance, shape and freshness of food, food processing companies will need more and more systems that process products of high quality and pack them in a modern and attractive way.

The Exhibition

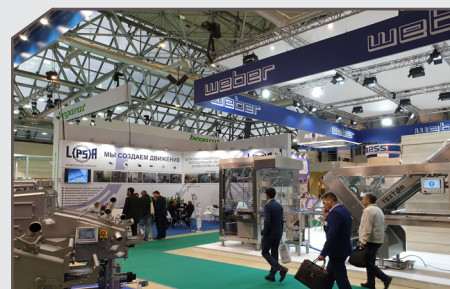

AgroProdMash is the meeting point for manufacturers and dealers of food and packaging machinery as well as ingredients and additives since 1996. At the last exhibition, 939 companies took part showcasing their machinery and equipment in 19 halls. More than 26.000 trade visitors did not only come from Russia but from all CIS states.

As in the past years, German manufacturers will be exhibiting at a joint German stand at this year's „Meat Industry“, which takes place in the frame of AgroProdMash.

Main Topics

Food processing technologies • Bakery and sweets technologies • Fruit and vegetable processing • Labelling machinery • Packaging machinery • Storage equipment • Beverage technologies • Ingredients and food additives • Industrial refrigeration • Transport and logistics • Industrial hygiene

Our experience is your profit!

Statistics

Development of AgroProdMash

Year	1996	2004	2010	2013	2017	2018	2019
Exhibitors	320	658	644	803	808	870	939
Exhibition space	7,043 m ²	17,630 m ²	19,310 m ²	23,409 m ²	24,721 m ²	25,997 m ²	27,998 m ²

Exhibitors from the following countries:

Australia, Austria, Belarus, Belgium, Bulgaria, Canada, China, Czech Republic, Denmark, Finland, France, Germany, Hungary, Ireland, Iceland, Italy, India, Iran, Japan, South Korea, Lithuania, the Netherlands, Poland, Russia, Sweden, Switzerland, Slovakia, Spain, Tajikistan, the UK, the USA, Turkey, Ukraine

Innovations for exhibitors and visitors

- online matchmaking for B2B
- online admission-tickets for your clients
- business centre on the fairground offering a computer room and meeting rooms

Our Service

- extensive personal support before and during the exhibition
- competent consulting for stand construction
- support by our experienced partners regarding transport, customs clearance and travel organisation
- IFWexpo-service-office at the exhibition
- free admission-tickets for your clients
- extensive advertising before and during the exhibition (advertisements in specialised magazines, listing of company in web-catalogue of AgroProdMash)
- two invitation tickets to the evening reception of IFWexpo
