

Dear all,

Reed Exhibitions, organiser of Airport Show Dubai, have been closely monitoring the COVID-19 Coronavirus crisis. In line with advice from the World Health Organisation, local and national health authorities in the UAE and with the health and safety of our customers as our number one priority, we have taken the decision to postpone Airport Show and its co-located events to later in the year.

### Airport Show will now take place on: 26-28 October 2020

This is not a decision that has been taken lightly. We fully understand and appreciate the level of preparation and planning that is required to participate at an event like ours. The COVID-19 outbreak, related travel, and commercial restrictions make it too difficult to hold the show as planned. By holding the event later in the year, we will be able to deliver a safer and more valuable experience for all involved.

There is no doubt that COVID-19 has and will severely affect our industry. However, we are confident that once we are through these challenging times, aviation will once again play its important role in supporting economic recovery efforts around the world.

At this time, Airport Show is continuing to regularly engage with our international audience of aviation decision makers through our extensive online content, sharing essential information on new technologies, ideas and solutions that will help them with their recovery efforts, while supporting our exhibitors more than ever with personalised communication.

We apologise for any inconvenience that this may cause and are grateful to our customers for all their support and constructive input during this challenging period.

We will keep you informed if the situation changes further. Our thoughts are with all those affected in these difficult times.

If you require any further clarification or information regarding this situation, please feel free to email us at [info@theairportshow.com](mailto:info@theairportshow.com)

Stay safe and keep well.

Kind regards,

Vasyl Zhygalo  
Managing Director – Reed Exhibitions Middle East
