## Agro Animal Show / Grain Tech Expo / Fruit.Vegetables.Logistics 16 - 18 February 2021

International Specialised Exhibition of Livestock  
and Processing of Fruits, Vegetables and Grain

### The Market

With 32.5 m ha of arable land and one-third of the worlds fertile black earth, Ukrainian agriculture has a huge potential. In 2019, Ukraine again attained a record harvest (75 m tons) and also the exports of sun flower oil, barley and wheat reached new heights Agriculture has always been one of the major sectors of the Ukrainian economy – its share of the GDP amounts to approximately 10% with agricultural products accounting for 44.2% of the Ukrainian export revenues.

However, due to the shortage of state-of-the-art equipment experts estimate that 5-6 m. tons are lost annually. The insufficient equipment of the industrial plants also affects the average yields in grain, sun flowers, rapeseed, sugar beets and potatoes with results way below the Western European level. According to estimates of the Ukrainian Agricultural Ministry Ukrainian farmers need 40,000 new tractors and 5,000 new combines every year to keep up with the demands of the export markets. The Ukrainian Government, thus, subsidizes livestock farms and agricultural machinery purchases with 2.8 bn. UAH in 2019.

Livestock in Ukraine has been gaining more and more importance. The poultry sector driven by exports has been rapidly developing. In 2019, exports of poultry products amounted to 416,610 tonnes setting again a new record.

### Fruits and vegetables

Due to the fertile black soil and favorable climatic conditions production of fruits and vegetables in Ukraine, especially in it southern regions, provides high potential. Ukraine belongs to the Top 5 of the European apple producers and to the Top 10 of the most important producers of grapes and wine in Europe.

### The Exhibition

Agro Animal Show /Grain Tech Expo /Fruits.Vegetables.Logistics is the most important platform for animal husbandry and agricultural technology in Ukraine. At the last edition 529 companies from 24 countries showcased their complete range of state-of-the art solutions for animal husbandry and agricultural technologies to 18,000 business professionals.

### Main Topics

Animal housing construction, husbandry technologies; grain processing, feed production, forage production, transport & storage solutions; breeding technologies, genetics; milking, cooling technologies; biomass utilisation; auxiliary equipment, devices, instruments; plant growing and agricultural chemistry.

Our experience is your profit!

## Agro Animal Show / Grain Tech Expo / Fruit.Vegetables.Logistics 16 - 18 February 2021

International Specialised Exhibition of Livestock  
and Processing of Fruits, Vegetables and Grain

## Prices

### Participation Fees

179 € per sqm hall space

80 € per sqm standard stand construction

### Surcharge for location

- Corner stand (2 sides open): 10 %
- Peninsula (3 sides open): 15 %
- Island (4 sides open): 20 %

### Registration Fee

330 € per exhibitor/sub-exhibitor

Registration deadline: 12 December 2020

## Our Service

- individual personal support before and during the exhibition
- extensive consulting for stand construction
- support by our experienced partners regarding transport, customs clearance and travel
- IFWexpo service office at the exhibition
- free admission tickets for your clients
- extensive advertising regarding the exhibition
