PRODUCTIVE BEEKEEPING

The international exhibition of
manufacturers of beekeeping
industry equipment and tools

www.bee-expo.kiev.ua

IEC, Kyiv, Ukraine
M LIVOBEREZHNA

Organizer:
KYIV INTERNATIONAL
CONTRACT FAIR

Productive beekeeping 2021 is the international exhibition of manufacturers of beekeeping industry equipment and tools.

Mission: to create conditions for effective communication between manufacturers of equipment for beekeeping, bee products from Ukraine and abroad.

Beekeeping is an integral part of agriculture. The significant increase in yields of insect pollination crops in recent years is a bright example of this.

Visiting the **Productive beekeeping** exhibition will allow you to buy everything you need for your apiaries, learn about the state of the industry and summarize the season with like-minded people.

NEW

On **October 28, 2021, the National Honey Forum "Golden Apiary 5.0"** will be held for the first time within the Productive beekeeping exhibition.

Within the Forum it will be held:

- plenary sessions "Honey industry: legislative innovations, honey market, expectations of beekeepers"; and "Apidology: scientific discoveries in 2021";
- two practical parts "Business on a way out of the crisis: new trends and strategies" and "Organizational and legal aspects of beekeeping".
