IndiAirport

International Airport Industry Show

22 - 24 November 2022

New-Delhi / India

The Market:

With 137 AAI Airports managing close to 78% of domestic passenger traffic and 22% of international passenger traffic India has become the third largest Domestic Aviation Market in the world and the fastest growing market in the world. India's aviation industry is expected to witness US\$ 4.99 billion investment in the next four years, The Indian Government is planning to invest US\$ 3.58 billion for development of airport infrastructure along with aviation navigation services by 2026. By 2024 India plans to open 100 additional airports.

The Exhibition:

IndiAirport, for the first time, provides an opportunity for airport industry leaders to exchange ideas and debate current issues. Presenting solutions and technologies for the development and construction of airports IndiAirport will also serve as a unique networking platform bringing together industry experts and Indian Airport authorities.

The Federal Ministry for Economic Affairs and Energy supports IndiAirport with an official German Pavilion. German companies and their Indian representatives can exhibit in this special format benefiting from additional services and special rates

Topics:

- Airport industry • Services • Baggage Handling • Cargo Handling • Passenger Handling
- Airport Technologies: IT, Technical Installations, Security, Lighting Systems, Technical Systems • Design, Lounges, Architecture • Airport Construction, Planning, Construction
- Airport Operations: Management, Maintenance, Ground Support and Handling
