# EVENT OVERVIEW

Agritec Africa 2024, held from June 12 to 14 at the Kenyatta International Convention Centre (KICC) in Nairobi, Kenya, marked a significant milestone in the agricultural sector. This esteemed event, now in its 9th edition, continued its tradition of serving as a premier platform for farmers, agriculture professionals, stakeholders, and enthusiasts dedicated to advancing agriculture across Africa.

## KEY SPONSORS

- Title Sponsor: KCB Foundation
- Main Sponsor: Bharat Bio East Africa Ltd
- Platinum Sponsor: Agro Chemicals Industries Ltd

## SUPPORTING ENTITIES

The success of Agritec Africa 2024 was bolstered by the support of key organizations including the Ministry of Agriculture & Livestock Development, Kenya Dairy Board, Agriculture Sector Network, Crop Life, Aak Grow, and Cereal Millers Association (CMA).

## INTERNATIONAL NETWORK

Beijing Sun Rising Exhibition Service Co., Ltd., Italian Trade Agency, Iran House of Innovation and Technology Kenya Ltd, IFWexpo Heidelberg GmbH & B2B Fairs Fuarcilik Ticaret Limited Sirketi played a pivotal role in facilitating international connections and partnerships during the event.

## MEDIA PARTNERS

NTV Kenya, KTN News Kenya, Kenya Postel Directories Limited (Yellow Pages Kenya), African Farming and Food Processing, Afro-India Trade magazine, AGRi MECH

# INAUGURATION AND HIGHLIGHTS

The inauguration of **Agritec Africa 2024** commenced with a prestigious ribbon-cutting ceremony, led by esteemed VIPs and key stakeholders in the agricultural industry. The ceremony was graced by notable figures such as **Mr. Badu S Katelo** from the **Ministry of Agriculture & Livestock Development**, **Mr. Sanyal Desai** and **Mr. Neeraj Shah** from **Radeecal Communications**, **Mr. Rohit Vadhvana**, Deputy High Commissioner of India to Kenya, **Dr Ali Gholampour** from the Iranian Embassy in Kenya, **Mr. Hamisi Williams** representing the Food and Agriculture Organization of the United Nations (FAO), **Dr Bimal Kantaria**, Chairman of Agriculture Sector Network, and **Ms. Mendi Njonjo**, Director of KCB Foundation.

## EXHIBITION HIGHLIGHTS

Agritec Africa 2024 featured an premier exhibition showcasing cutting-edge technologies, innovative agricultural practices, and solutions aimed at enhancing productivity and sustainability in farming. The exhibition provided a dynamic platform for networking, knowledge sharing, and fostering strategic partnerships.

The 9th edition of Agritec Africa and the concurrent 9th DLP Expo Africa & 4th Graittech Africa added more value to the experience of all our participants. This comprehensive approach provided attendees with a holistic and comprehensive insight into the latest advancements and trends in the wider agricultural sector.

# AGRITEC AFRICA 2024 CONFERENCE

## CONFERENCE THEME

The central theme, "Improving Farmer's Income Through Technology," highlighted the essential role of technology in driving agricultural productivity and profitability. The conference explored various facets of this theme, including:

- **Organic Farming:** Strategies and benefits of organic farming practices.
- **Sustainability:** Sustainable agricultural practices and their long-term impact on productivity and the environment.
- **Commercialization:** Pathways to commercialize agriculture effectively and profitably.
- **Technological Advancements:** Cutting-edge technologies and innovations poised to revolutionize the agricultural sector.

# KEY HIGHLIGHTS

## 1. In-depth Discussions and Panels:

- Expert speakers and panellists shared valuable insights on farm mechanization and its role in improving efficiency and income for farmers.
- Discussions emphasized the integration of sustainable practices with technological advancements to achieve long-term agricultural growth.

## 2. Innovative Approaches:

- Sessions focused on the application of modern technology in farming, including precision agriculture, biotechnology, and digital farming tools.
- Case studies demonstrated successful implementations of technology-driven solutions in various farming contexts.

## 3. Organic and Sustainable Practices:

- Presentations highlighted the benefits of organic farming and sustainable practices, showcasing how they can be both environmentally friendly and economically viable.
- Strategies for transitioning from conventional to organic farming were discussed, providing practical guidelines for farmers.

## SPEAKERS AND PANELLISTS

We extend our heartfelt appreciation to all the esteemed speakers and panellists who enriched the conference with their knowledge and expertise. Their contributions fostered meaningful discussions and inspired new ideas for driving progress in the agricultural sector.

# CONFERENCE SPEAKERS

## Seeds of Gold

### Advanced agriculture technology at Expo

**Drones and groundnut threshers wow farmers P.25**

Advanced Precision and Agri Robot (APAR) is the first of its kind in Kenya. It is a drone that can be used for various agricultural purposes such as spraying, monitoring, and data collection. It is a product of the Kenya Agricultural Research Institute (KARI) and is being showcased at the 9th AgriTech Africa, an International Exhibition and Conference on Agricultural Technologies at KICC in Nairobi on June 12, 2024. KARI CEO PETER MUKUNDU

SATURDAY NATION JUNE 19, 2024 Seeds of Gold

## Advanced agriculture tech, showcased at expo in Nairobi

**Bungoma farmers receive 33 Galla goats**

**FARM TO FORK**

Three farmers in Bungoma County have received 33 goats from the Kenya Livestock Conservation Project. Under the programme, every farmer receives 11 goats and 10 female goats that will be used for breeding.

After the goats were handed over, the farmers were taken to the KARI office in Bungoma to receive training on goat rearing and management. The project is a joint venture between the Government of Kenya and the International Livestock Research Institute (ILRI).

The project aims to improve the livelihoods of small-scale farmers in Bungoma County by providing them with access to modern agricultural technologies and services. The project is also aimed at increasing the productivity and sustainability of the agricultural sector in the region.

The project is being implemented by the Kenya Agricultural Research Institute (KARI) in partnership with the International Livestock Research Institute (ILRI). The project is also supported by the Government of Kenya and the International Livestock Research Institute (ILRI).

**Produce the crop in less than a week, especially during harvesting, since most farmers manually thresh their yields. A 50-lb bag can be peddled by three people in a week, but the thresher can do four bags in a day.**

**Kephis offers training on seed multiplication**

The Kenya Health Research Institute (KHRI) has launched a new initiative to train farmers on seed multiplication. The initiative is aimed at improving the quality and quantity of seeds available to farmers in the region.

The training will be conducted by Kephis, a seed multiplication company based in Nairobi. The training will cover various aspects of seed multiplication, including seed selection, sowing, and harvesting.

The initiative is part of a larger programme aimed at improving the livelihoods of small-scale farmers in Bungoma County. The programme is also aimed at increasing the productivity and sustainability of the agricultural sector in the region.
