Agro Animal Show / Grain Tech Expo / Fruit.Vegetables.Logistics 12 - 14 February 2025

International Specialised Exhibition of Livestock
and Processing of Fruits, Vegetables and Grain

The Market

Ukraine is one of the largest agricultural markets in Europe, with approximately 41.3 million hectares of agricultural land, including 32.7 million hectares of arable land. The country possesses vast areas of highly fertile chernozem soils, which contribute to high productivity and make Ukraine an important producer and exporter of grains and oilseeds.

Agriculture remains a key pillar of the economy: the sector generates about 7.4% of GDP and provides employment for roughly 14% of the workforce. More than 50% of Ukraine's total exports are agricultural and food products. The leading export commodities include wheat, maize, and sunflower products, which are widely supplied to European and global markets.

The Ukrainian agricultural sector is represented by both large agribusinesses and numerous small and medium-sized farms, creating a flexible and diversified market structure that is attractive for international partners, including companies from the EU and Germany.

According to data from the State Customs Service of Ukraine, the volume of tractor imports in January–October 2025 reached USD 703.83 million, an increase of 6.6% compared to the same period in 2024 (USD 660.51 million).

Agro Animal Show

is an international exhibition showcasing modern technologies for animal husbandry and poultry farming. It provides a key platform for industry experts to meet and explore solutions in housing, feeding, manure management, feed production, veterinary care, genetics, and more.

Fruit. Vegetables. Logistics

is Ukraine's leading event for advanced technologies in vegetable growing, horticulture, and viticulture, highlighting innovation and the sector's investment potential.

Grain Tech Expo

is a top agro-industrial exhibition presenting cutting-edge technologies for the production, storage, processing, and transport of grain, legumes, cereals, and oilseeds.

Together, these three exhibitions create Ukraine's most comprehensive professional platform, uniting modern agricultural technologies and global industry players in one place.

Our experience is your profit!

Agro Animal Show / Grain Tech Expo / Fruit.Vegetables.Logistics 12 - 14 February 2025

International Specialised Exhibition of Livestock
and Processing of Fruits, Vegetables and Grain

Statistics from the last edition

102 Exhibitors

7 Countries – Germany, Poland, Italy,
France, the Netherlands, Turkey, United
Kingdom

9 300 Visitors
